

How Much Water Does A Chicken Drink?

Age	Daily Requirements (Approx)
Newly Hatched	60 ml minimum or 3 ml for each 1 g of feed
1 Week Old	340 ml
Mature	500 ml
Mature in Hot Weather	Up to 1 Litre
Mature Layer in Hot Weather	>1 Litre
Bantam	250 – 500 mls

- If a chicken is unwell, this may also increase their water intake.
- Always allow your chickens to have plenty of clean fresh water.
